CERT-In Vulnerability Note CIVN-2022-0241

### Information disclosure vulnerability in Oracle E-Business Suite

Original Issue Date: May 20, 2022

Severity Rating: HIGH

Software Affected

- Oracle E-Business Suite versions 12.1, 12.2

#### Overview

A vulnerability has been reported in Oracle E-Business Suite which could be exploited by a remote attacker to access sensitive information on a targeted system.

#### Description

This vulnerability exists in Oracle E-Business Suite due to a flaw in the Manage Proxies component. An unauthenticated remote attacker could exploit this vulnerability by sending a crafted web request to a vulnerable system.

Successful exploitation of this vulnerability could allow the attacker to access sensitive data (such as Personally Identifiable Information) on the targeted system.

#### Solution

Apply appropriate updates as mentioned in:

<https://www.oracle.com/security-alerts/alert-cve-2022-21500.html>

#### Vendor Information

##### Oracle
